Introduction	1
What's in the Book	1
Section 1: The Foundation	1
Section 2: Developing a Gadget	2
Section 3: Advanced Samples	2
Special Features and Notations	2
Supporting Website	3
Part I The Foundation	
1 Innovate with Windows Vista Sidebar Gadgets	7
Introducing Gadgets and the Vista Sidebar	7
Windows Sidebar	8
Technology Behind Gadgets	8
Brief History of Gadgets	9
Innovate with Gadgets	10
Types of Gadgets	12
Information Gadgets	12
Application Gadgets	13
Utility Gadgets	14
Fun Gadgets	14
Gadgets in Depth	15
What Gadgets Are Not	15
Different Views—The Three Hats of the Gadget	16
Opacity Level and Always on Top Property	17
Using Flyout for More Information	18
Customization	18
Multiple Platforms for Gadgets	19
Meeting Points for Different Gadgets	20
The Development Platform	21
Gadget Ecosystem	21
Other Desktop Gadget/Widget Platforms	22
Gadget Comparison Chart	26

2	The Architecture	29
	Gadgets Overview	29
	The Manifest File gadget.xml	31
	User Interface and Presentation	32
	Cascading Style Sheets	32
	Core Functionality of the Gadget: JavaScript	34
	Resources, PNG, and Other Files	34
	Technology Behind Gadget Development	35
	MSHTML Component, the Core of the Gadget	36
	Standard Web Technologies	36
	Sidebar Gadget as an HTML Application	37
	Gadget Object Model	38
	ActiveX Technology	38
	Gadget Object Model	39
	User Interaction and Sidebar Events	40
	APIs to Access the File System	42
	Core Features to Interact with the System	44
	Communication and Other APIs	44
	Sidebar Gadgets: The Road Ahead	46
3	An Approach to Design	49
	Design Considerations	49
	Putting Information First	50
	Constructing the Right User Interface	53
	Usage Patterns	57
	Gadget Behavior	60
	Challenges for the User Interface	63
	Standard Dimensions	64
	Gadget Page When Docked	64
	Undocked Gadget	65
	Settings Page	65
	Flyout Page	65
	Other Interface Guidelines	66
	Visual Themes	67
	Title	67
	Icon	67
	Drag Image	68
	Background Image	68
	Controls	69
	Text and Style	70

Transparent Images in the Gadget	71
Alpha Transparency	71
Portable Network Graphics File	71
GIF File Limitations	71
About Accessibility	72
Keyboard Access	72
General HTML accessibility	73
Theme Colors and Contrast	73
4 Selling Your Gadget	75
Gadget Revenue Model	75
Pull Model	76
Push Model	78
How Gadgets Give You Business	80
The Ad Gadget	81
Gadget as a Side Product	82
Utility Gadget	84
Free Information Gadget	85
Supporting Your Gadget	87
Part II Developing a Gadget	
5 Creating a Simple Gadget with RSS/Atom Feed	91
Feed Gadgets	91
Brief Background on Feeds	91
About the MyBlog Gadget	92
Basic Framework of the MyBlog Gadget	94
Required Files	94
Directory Structure	95
How the MyBlog Gadget Works	97
The Manifest File	98
Gadget Settings	100
Parts of the MyBlog Gadget	102
The Data	103
Core Functionality of the Gadget	104
Presenting with CSS and DOM	107
Putting It All Together	112

6	Design Patterns and Standard Practices	115
	Design Patterns	115
	Maintainable	116
	Customizable	116
	Extensible	117
	Elements of Design Patterns	117
	Standard Layout for Files and Folders	118
	Reusable Functionality	120
	Display and Presentation	127
	Common Assumptions	130
	The Gadget Will Always Work	130
	Internet Connection	131
	Regular Feed Updates	132
	Caching of the Feed Data	133
	Memory and Session Management	133
	Adding Accessibility	134
	Putting the Focus on the Gadget when It Is Loaded	135
	Adding Tab Controls	135
	The Enter Key Acting Like a Mouse Click	135
	Using the onfocus and onfocusout Events for Mouse Hover Effect	137
	Making the Gadget's Flyout and Settings Page Keyboard Accessible	137
7	The MyBlog Gadget Revisited	139
	Recapping the MyBlog Gadget	139
	Taking the MyBlog Gadget to the Next Level	141
	Adding Multiple Feeds	142
	Managing Multiple Pages in the Gadget Window	150
	Unobtrusive Traversing	152
	Docked, Undocked, and Mini Me Version	154
	Settings Page Configuration for the Mini Me Version	155
	Gadget Window Configuration	156
8	Debugging and Deploying a Gadget	159
	Debugging a Gadget	160
	Debugging Using WScript and VBScript	161
	Debugging Using JavaScript and DOM	166
	Debugging Tools	168
	Deploying a Gadget	170
	Gadget Installation Target	171
	Gadget Installation Process	172
	Gadget Packaging	172

Deployment Using a Cabinet File	174
CAB File Approach	175
A Windows Installer (.msi File) or setup.exe	180
Comparison of Deployment Methodologies	180

Part III **Advanced Samples**

9 Site Statistics Gadget with Ajax—An Information Gadget	183
The Goal	183
Background—www.sitemeter.com	184
Site Summary Page	185
Features and Technology	186
Application Programming Interface	187
Loading a Portion of a Web Page with Ajax and DOM	190
Design Considerations	195
Theme and Images of the Gadget	195
Layout of the Gadget	196
Usability of the Gadget	197
Developing the Gadget	198
Integrating the Existing Framework	199
Retrieving Data for Site Summary Using API and Online Web Page	200
Graphs and Pie Charts Based on the API	204
10 Most Recent Used .NET Projects—An Application Gadget	211
Recent .NET Project Gadget	211
Target of the Gadget	212
Background	212
Features and Technology	213
ActiveX COM Technology	214
Windows Power Shell and Windows Management Instrumentation	216
Design Considerations	219
Theme of the Gadget	219
Layout of the Gadget	220
Usability of the Gadget	221
Developing the Gadget	222
Integrating the Existing Framework	222
Listing MRU Items from the Registry	225
Reading the Registry	234

11 Radio Gadget and YouTube Video Gadget—Fun Gadgets 237

- Media Gadgets 237
- The Radio Gadget 238
 - Background—Internet Radio 238
 - Features and Technology 239
 - Design Considerations 240
 - Developing the Gadget 243
- The YouTube Video Gadget 249
 - Background—YouTube Video Feeds 249
 - Features and Technology 250
 - Design Considerations 251
 - Developing the Gadget 255

12 A Silverlight World Clock—Utility Gadget 261

- The Silverlight Gadget 261
 - Background—Microsoft Silverlight 262
 - Features and Technology 264
 - JavaScript for Creating the Silverlight Object 265
 - Microsoft Silverlight 266
 - Extensible Application Markup Language 267
- Design Considerations 268
 - Theme and Images 268
 - Layout of the Gadget 269
 - Usability of the Gadget 270
- Developing the Gadget 271
 - Integrating the Existing Framework 271
 - The XAML File 272
 - Silverlight Clock Logic 275
- Creating a Sidebar Gadget Using Microsoft Popfly 280
 - Website Comparison Gadget 280
 - Creating a Mashup Using Microsoft Popfly 281
 - Porting a Mashup to Vista Sidebar as a Gadget 283
- Where to Go from Here 284

Part IV Appendices

A Tips and Tricks 289

- Automatic Update and User Tracking 289
 - Checking for a New Version of the Gadget 290
 - Tracking Your Users 294

Reading XML, XHTML, RSS/Atom, Html, Text and JSON Data	295
The XMLHttpRequest object	295
Microsoft XML DOM	297
Windows RSS Platform & Microsoft Feed Manager	298
Globalization and Localization	299
Localized Gadget Example	300
Locales with Country Codes	302
Graphic Design	302
Gadget Protocols for Image and Text	302
Sample Gadget g:Demo	304
Creating a Transparent PNG File in Photoshop	307
Creating Outer Edges/Shadow Effects in Photoshop	309
Security and Other Resources	311
Protecting Your Code	312
Gadgets in an Enterprise (Accessing SQL Server)	313
Resources and References	314
B Extras	315
Reusable Framework for Creating Gadgets	315
Sample Gadgets Based on the Framework	317
The Widget-Box Gadget	317
The Comic-Strip Gadget	319
The Trick-of-Mind Gadget	319
Share Your Gadgets	320
